

# A-LASER STRATEGIC PARTNERS

BlueRing Stencils was formed in 2017 from the merger of 2 SMT Stencil manufacturers. The merge combined the most advanced stencil technologies and laser systems into 1 company, increasing market reach and expanding service areas across North America.

**FCT Water Treatment**

FCT Water Treatment (FCTW) started in 2003 with the goal of providing water treatment solutions to the Rocky Mountain Region. FCTW has been able to utilize partners' infrastructure in IL, TX, FL, and CA to expand its ability to provide custom water treatment services to customers across the USA.

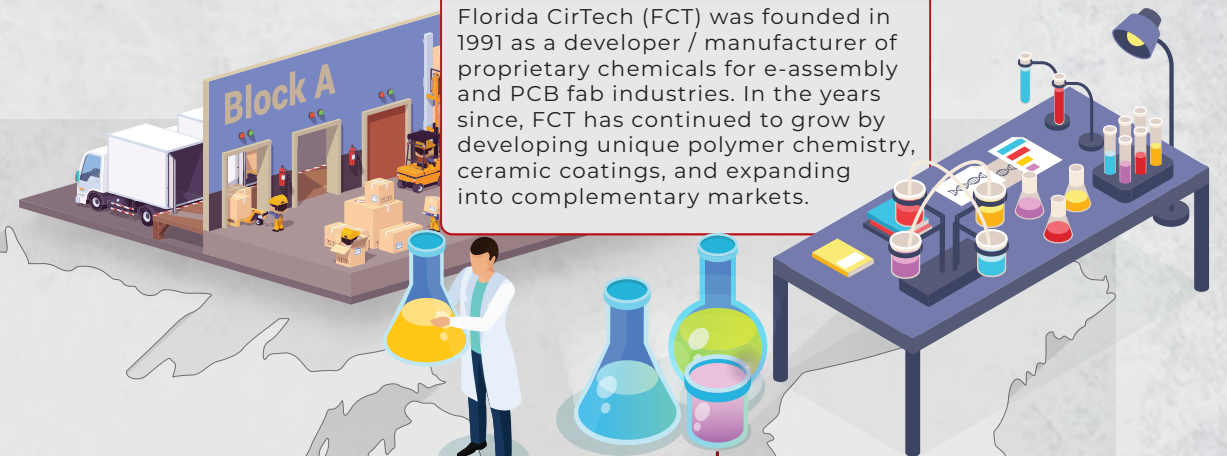

**A-LASER**

A-Laser, founded in 1993, is located in Silicon Valley to support high tech manufacturers with design, engineering, and ultra-precision laser processing. Strategic partnerships were formed starting in 2004, to expand customer network, technical knowledge, and laser capabilities.

**Florida CirTech**  
LEADERS IN ADVANCED MATERIALS

Florida CirTech (FCT) was founded in 1991 as a developer / manufacturer of proprietary chemicals for e-assembly and PCB fab industries. In the years since, FCT has continued to grow by developing unique polymer chemistry, ceramic coatings, and expanding into complementary markets.

**FCT Solder**

FCT Solder was created in 2004 using extensive knowledge of circuit board assembly chemistries. They are a high-quality source of solder materials for Contract Manufacturers and Original Equipment Manufacturers that push the boundary of technology and set industry standards.
